

Dubai Silicon Oasis

Introduction

Dubai Silicon Oasis (DSO) was established to become one of the world's leading centers for advanced electronic innovation, design, and development.

In just one year, the 100% government-owned free zone, with its world-class technology infrastructure and seamless technical support took its shape and succeeded in positioning itself locally as well as globally as the region's premier integrated innovations hub for high-tech industries.

DSO is considered to be the region's engine towards establishing a stable knowledge base economy and extends an appealing value proposition embodied in the presence of full government support, competitive cost of operations, state-of-the-art infrastructure, advanced IT network, free zone benefits, 100 per cent owner ship, and above all an environment that is specifically designed for the technology industry.
